NOTICE OF PROPOSED ACTION

U.S. Environmental Protection Agency
Region IX

San Francisco, CA 94105
(415) 556-3450

Public Notice

H-79-2-W
3/2/79

On November 28, 1974, the Administrator of the Environmental Protection Agency gave approval to a request from the State of Hawaii for authorization to administer the National Pollutant Discharge Elimination System (NPDES) permit program for waters within the jurisdiction of the State. This authorization was made pursuant to Section 402(b) of the Federal Water Pollution Control Act Amendments of 1972. The authorization excluded discharges from facilities which are agencies or instrumentalities of the Federal government.

The 1977 Amendments to the Federal Water Pollution Control Act (33 U.S.C. 466 et. seq.) provide, in Section 313, authority for states to regulate discharges from agencies or instrumentalities of the Federal government. Consequently, the Administrator of the Environmental Protection Agency proposes to expand the State of Hawaii's NPDES authorization to include Federal Facilities.

Comments or questions regarding this matter should be directed to the Environmental Protection Agency, Region IX, Mail Code E-4-1, at the above address within 30 days of this date.
